CAREER OBJECTIVE

To effectively influence improved system performance in the information technology industry through research, constant learning and skill acquisition.

EDUCATION

Prairie View A&M University Expected: December 2016
MSc. Electrical and Computer Engineering **GPA: 4.00**

Obafemi Awolowo University December 2010
BSc. Electronic and Electrical Engineering **GPA: 3.35**

WORK EXPERIENCE

Guaranty Trust Bank plc

Application Support Analyst/ Database Administrator Mar 2013 – Aug. 2015

- SQL Server Administration and Database Management – I managed the MSSQL databases and constantly monitored server performance to ensure service stability. I configured High Availability and Disaster Recovery environment for the databases.
- Systems and Application Support – I worked closely with the software development team and business units to provide essential primary support for all trading, operational and market systems. I resolved complex application issues as they happen.
- Systems Monitoring and Application Maintenance – I managed and monitored the deployment of new system/software and upgrades for all trading and operational systems. This include continuous evaluation and improvement of business support procedures and associated environments.

DTD Services Limited

Intern July 2009 – Dec. 2009

- I installed and maintained telephone PABX systems. I formulated new fault detection and maintenance schematic for the telephone wiring systems which reduced working time by over 30 minutes.
- I installed electrical wiring in client's offices and buildings. This involved liaising with statutory power corporation (PHCN), power distribution calculations, loading design and project execution. I installed household gadgets.

SKILLS AND COMPETENCES

- SQL Server Administration and SQL Server Management tools
- IT Service Monitoring tools like SCOM, Manage Engine
- Microsoft Office tools, Microsoft IIS
- MATLAB, C++ programming
- Other skills include excellent interpersonal communication, ability to effectively manage time and prioritize tasks.
